Assignment: HTML I

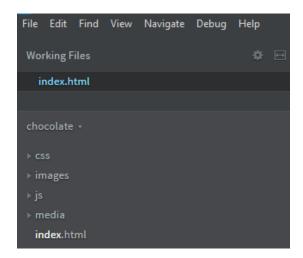

In your editor click "File" and then "Open folder".

Find and select the folder "chocolate". You will see a similar image in the editor.

Create a new file "index.html"

Modify the file. The browser's output, should be as shown in the following image:

A site about chocolate

We will see some of the world's chocolates!

Things you didn't know about chocolate!

It arrived to Europe in 16th century

The first years, only drinking chocolate was available

It was considered luxury food!

It contains caffeine

Your brain needs it after hard work!

You will need this text:

Choc home

A site about chocolate

We will see some of the world's chocolates!

Things you didn't know about chocolate!

It arrived to Europe in 16th century

The first years, only drinking chocolate was available

It was considered luxury food!

It contains caffeine

Your brain needs it after hard work!
